Subject: Fw: draft New Bedford CAD letter

here's the letter I suspected was coming. Apparently they've forgotten that CDFs are still on the books and that they supported them (along with everyone else) in the 1998 ROD.

thoughts on who should attend the meeting they've requested?

Subject: draft New Bedford CAD letter

Ira - Here's the draft letter we discussed regarding the use of CAD cells for PCB material in New Bedford Harbor. It is not for release, but just to give you a sense of our thinking right now.

Dave - I'd like to set up a meeting with you and whoever else at EPA you think should be involved to discuss this. We don't intend to finalize this letter until we can have a detailed discussion with you first. What dates/times are good for you?

Thanks,

Mark
